City of Crowley, Texas General Fund Balance Policy

Purpose

The purpose of this policy is to establish a key element of the financial stability of the City by setting guidelines and parameters for fund balance. Unassigned fund balance is an important measure of economic stability. It is essential that the City maintain adequate levels of unassigned fund balance to mitigate financial risk that can occur from unforeseen revenue fluctuations, unanticipated expenditures, and other similar circumstances. This policy will ensure that the City maintains an adequate fund balance in the City's general fund for the purposes of:

- Providing sufficient cash flow for daily operations
- Securing and maintaining a higher investment grade bond rating
- Offsetting significant economic declines or revenue shortfalls
- Providing funds to meet unforeseen emergency expenditures
- Demonstrating a commitment to long-term financial planning objectives

Definitions

Fund Equity – A fund's equity is generally the difference between its assets and its liabilities.

Fund Balance – The fund equity of a governmental fund is required to be split into the following categories for reporting purposes:

1. **Non-Spendable Fund Balance** – includes amounts that are not in spendable form or are legally or contractually required to be maintained intact.
2. **Restricted Fund Balance** – includes amounts that can be spent only for the specific purposes stipulated by external resource providers either constitutionally or through enabling legislation.
3. **Committed fund balance** – includes amounts that can be used only for the specific purposes determined by a formal action of the government's highest level of decision-making authority. Commitments may be changed or lifted only by the government taking the same formal action that imposed the constraint originally.
4. **Assigned fund balance** – comprises amounts intended to be used by the government for specific purposes. Intent can be expressed by the governing body or by an official or body to which the governing body delegates the authority. In governmental funds other than the general fund, assigned fund balance represents the amount that is not restricted or committed. This indicates that resources in other governmental funds are, at a minimum, intended to be used for the purpose of that fund.

5. **Unassigned fund balance** – is the residual classification of the general fund and includes all amounts not contained in other classifications. Unassigned amounts are technically available for any purpose.

Policy

Committed Fund Balance

- The City Council is the City's highest level of decision-making authority and the formal action that is required to be taken to establish, modify, or rescind a fund balance commitment is a resolution approved by the Council at the City's Council meeting. The resolution must either be approved or rescinded, as applicable, prior to the last day of the fiscal year for which the commitment is made. The amount subject to the constraint may be determined in the subsequent period.

Assigned Fund Balance

- The City Council has authorized the City Manager as the official authority to assign fund balance to a specific purpose as approved by this fund balance policy.

Unassigned Fund Balance

It is the goal of the City to achieve and maintain an unassigned fund balance in the general fund equal to 25% of budgeted expenditures. The City considers a balance of less than 20% to be cause for concern, barring unusual or deliberate circumstances.

The computation of the required fund balance will occur once a year, as follows:

- The computation will occur after the audit is presented to City Council. The fund balance as of September 30 of the audit year will be compared to the budgeted operating general fund expenditures for the fiscal year following the audit.

The Council may appropriate unassigned fund balances for emergency purposes, as deemed necessary, even if such use decreases the fund balance below the established minimum.

If the unassigned fund balance falls below the goal or has a deficiency, the City will implement a plan to replenish the fund within one year or as soon as economic and budgetary conditions allow. The following budget strategies may be considered for implementation until fund balance has been replenished to an acceptable level:

- Reduction of expenditures to minimum levels, including, but not limited to:
 - Reduction in discretionary spending such as travel and training
 - Implementation of a hiring freeze for non-essential positions
- Increase revenues or pursue other funding sources
- Use operating surpluses available in other funds
- Designate a fixed amount or a percent of operating expenditures in the next budget
- Any combination of the above strategies or others presented for consideration by staff or City Council

Exhibit A

Should unassigned fund balance of the general fund exceed the 25%, the City will consider using such fund balance surpluses for one-time expenditures that are nonrecurring in nature, and which will not require additional future expense outlays for maintenance, additional staffing or other recurring expenditures.

Order of Expenditure of Funds

When multiple categories of fund balance are available for expenditure, the City will start with the most restricted category and spend those funds first before moving down to the next category with available funds.

Monitoring and Reporting

The Finance Director will be responsible for monitoring and reporting on the City's general fund balance. The City Manager is directed to make recommendations to the Council on the use of general fund balance surpluses both as an element of the annual operating budget submission process and in the annual audit and financial statement preparation process.

City of Crowley, Texas City Council Agenda Report

Presenter: Carol Cannady	Meeting Date: July 17, 2025
Department: City Secretary	Agenda Item: IV.3.
Subject: Discuss and consider approving Resolution R07-2025-460, a resolution suspending the July 31, 2025 effective date of ONCOR Electric Delivery Company's requested rate change to permit the city time to study the request and to establish reasonable rates; approving cooperation with the Steering Committee of Cities served by ONCOR to hire legal and consulting services and to negotiate with the company and direct any necessary litigation and appeals; finding that the meeting at which this resolution is passed is open to the public as required by law; requiring notice of this resolution to the company and legal counsel for the steering committee.	

Background:

PURPOSE

Oncor Electric Delivery Company ("Oncor" or "the Company") filed an application on or about June 26, 2025 with cities retaining original jurisdiction seeking to increase system-wide transmission and distribution rates by about \$834 million or approximately 13% over present revenues. The Company asks the City to approve a 12.3% increase in residential rates and a 51.0% increase in street lighting rates. If approved, an average residential customer would see a bill increase of about \$7.90 per month.

The resolution suspends the July 31, 2025 effective date of the Company's rate increase for the maximum period permitted by law to allow the City, working in conjunction with the Steering Committee of Cities Served by Oncor, to evaluate the filing, determine whether the filing complies with law, and if lawful, to determine what further strategy, including settlement, to pursue.

The law provides that a rate request made by an electric utility cannot become effective until at least 35 days following the filing of the application to change rates. The law permits the City to suspend the rate change for 90 days after the date the rate change would otherwise be effective. **If the City fails to take some action regarding the filing before the effective date, Oncor's rate request is deemed administratively approved.**

DISCUSSION

The City of Crowley is a member of a 170-city coalition known as the Steering Committee of Cities Served by Oncor ("Steering Committee"). The Steering Committee has been in existence since the late 1980s. It took on a formal structure in the early 1990s when cities served by the former TXU gave up their statutory right to rate case expense reimbursement in exchange for higher franchise fee payments. Empowered by city resolutions and funded by *per capita* assessments, the Steering Committee has been the primary public interest advocate before the Public Utility Commission, the Courts, and the Legislature on electric utility regulation matters for the last 30 years.

Although Oncor has increased rates many times over the past few years, this is the first comprehensive base rate case for the Company since May 2022.

Explanation of "Be It Resolved" Paragraphs:

Section 1. The City is authorized to suspend the rate change for 90 days after the date that the rate change would otherwise be effective for any legitimate purpose. Time to study and investigate the application is always a legitimate purpose. Please note that the resolution refers to the suspension period as "the maximum period allowed by law" rather than ending by a specific date. This is because the Company controls the effective date and can extend the deadline for final city action to increase the time that the City retains jurisdiction if necessary to reach settlement on the case. If the suspension period is not otherwise extended by the Company, the City must take final action on Oncor's request to raise rates by July 31, 2025.

Section 2. This provision authorizes the Steering Committee, consistent with the City's resolution approving membership in the Steering Committee, to act on behalf of the City at the local level in settlement discussions, in preparation of a rate ordinance, on appeal of the rate ordinance to the PUC, and on appeal to the Courts. Negotiating clout and efficiency are enhanced by the City cooperating with the Steering Committee in a common review and common purpose. Additionally, rate case expenses are minimized when the Steering Committee hires one set of attorneys and experts who work under the guidance and control of the Executive Committee of the Steering Committee.

Section 3. The Company will reimburse the Steering Committee for its reasonable rate case expenses. Legal counsel and consultants approved by the Executive Committee of the Steering Committee will submit monthly invoices that will be forwarded to Oncor for reimbursement. No individual city incurs liability for payment of rate case expenses by adopting a suspension resolution.

Section 4. This section merely recites that the resolution was passed at a meeting that was open to the public and that the consideration of the Resolution was properly noticed.

Section 5. This section provides that both Oncor and Steering Committee counsel will be notified of the City's action by sending a copy of the approved and signed resolution to certain designated individuals.

ACTION REQUIRED BY July 31, 2025.

Steering Committee of Cities Served by Oncor (OCSC):

Today, your city likely received a Statement of Intent from Oncor Electric Delivery Company LLC (Oncor or Company) to change its rates. In its filing, the Company seeks to increase system-wide transmission and distribution rates by about \$834 million or approximately 13% over present revenues. This request includes a 12.3% increase in residential rates and a 51.0% increase in street lighting rates. If approved, an average residential customer would see a bill increase of about \$7.90 per month. Also today, Oncor filed its application at the Public Utility Commission of Texas (PUC). As we have done in the past, we have intervened on behalf of OCSC. We have hired two consultants to assist us with the case. As a ratemaking proceeding, cities are entitled to reimbursement of their legal and consulting expenses. Thus, there will be no direct charge to your city—or OCSC—as a participant in the rate case.

ACTION REQUIRED:

For Cities with Original Jurisdiction

For those cities with original jurisdiction over Oncor's rates, you will need to take action on Oncor's application using the attached resolution for Cities with Original Jurisdiction. This resolution suspends the rate filing. Rather than permit the increase to go into effect within your city, we advise that cities suspend the rate filing for 90 days via the attached resolution. This will give us more time to review the application. We will follow up with a resolution for final action as the case proceeds. Your city must adopt the attached suspension resolution by July 31, 2025. We have attached a model staff report for your use. **If your city is unable to take action before July 31 please contact us immediately.**

For Cities without Original Jurisdiction

Several OCSC Cities have relinquished their jurisdiction to the PUC. For these cities, **you do not need to take any action.** If you are unsure whether your city has jurisdiction over this matter, or have any additional questions please contact me.

Thanks,

Thomas, Jamie, Jack, and Rick
