The ALERRT Level I Kit contains nine total cases. All items listed above are included in the kit in the quantities shown and are packaged based upon curriculum standards and training design. All cases are watertight, airtight lockable cases with exterior carry handles and wheels to facilitate easy transportation. Each kit, when used as designed, allows complete mobility in training-allowing instructors to conduct a standard ALERRT Level I class at any location with the most basic of facilities while meeting all goals and objectives as established by the ALERRT Center. Note that kits as described DO NOT include expendables which KDL Solutions defines as items used completely during the instruction of a class or during the instruction of less than twelve classes. All such expendable items must be purchased independently of equipment, these items include ammunition, flash bang simulator fuses, ear plugs, printed materials, etc.

Standard Terms and Conditions

Axon Enterprise Inc. Sales Terms and Conditions

Axon Master Services and Purchasing Agreement:

This Quote is limited to and conditional upon your acceptance of the provisions set forth herein and Axon's Master Services and Purchasing Agreement (posted at <https://www.axon.com/sales-terms-and-conditions>), as well as the attached Statement of Work (SOW) for Axon Fleet and/or Axon Interview Room purchase, if applicable. In the event you and Axon have entered into a prior agreement to govern all future purchases, that agreement shall govern to the extent it includes the products and services being purchased and does not conflict with the Axon Customer Experience Improvement Program Appendix as described below.

ACEIP:

The Axon Customer Experience Improvement Program Appendix, which includes the sharing of de-identified segments of Agency Content with Axon to develop new products and improve your product experience (posted at www.axon.com/legal/sales-terms-and-conditions), is incorporated herein by reference. By signing below, you agree to the terms of the Axon Customer Experience Improvement Program.

Acceptance of Terms:

Any purchase order issued in response to this Quote is subject solely to the above referenced terms and conditions. By signing below, you represent that you are lawfully able to enter into contracts. If you are signing on behalf of an entity (including but not limited to the company, municipality, or government agency for whom you work), you represent to Axon that you have legal authority to bind that entity. If you do not have this authority, please do not sign this Quote.

Exceptions to Standard Terms and Conditions

Rewrite Estimates

Estimated Amounts and Contract Terminations. Any amounts stated as due under existing or terminated contracts - including contract transfer balances carried forward to new or pending contracts - are estimates based on payments received as of the calculation date. These estimates may be adjusted if new contracts are not executed on the anticipated dates or if expected payments are not made.

Refresh Shipment Timing

Technology Assurance Plan (TAP) Refresh Prior to Renewal. For Customers with expiring agreements that include TAP refresh rights, Axon may, in its discretion, ship refresh hardware under the existing contract while renewal or replacement agreements are in progress. Any such shipments will be deemed made under the terms of the existing contract until the new contract is fully executed, after which any applicable updates, fees, or adjustments will apply.

Shipment Timing

Shipment Variance. Estimated shipment dates are provided for planning purposes only and are not guarantees. Axon may ship hardware before or after the estimated shipment date, and failure to meet an estimated shipment date will not, by itself, constitute a breach, provided Axon uses commercially reasonable efforts to meet estimated shipment dates.

Free Shipping

Free ground shipping is available to home addresses in the contiguous United States. PO Boxes, Alaska, Hawaii, US Territories (including Puerto Rico), APO/FPO and addresses outside the United States are not eligible for free shipping.

FedEx Shipping

All merchandise except for oversized items (e.g. Flat screen LED TVs over 55" and plasma TVs over 51") advertised on Beachcamera.com are usually shipped via FedEx.

All packages shipped from Beachcamera.com require a signature upon delivery. Please arrange for someone to sign for the delivery if you are unable to do so. We recommend that you provide an email address so that we may keep you informed of the status of your order and send you tracking information. You will be able to track your order online or by phone for an estimated time of arrival. FedEx will attempt to deliver your package three times before returning it to Beachcamera.com

United States Postal Service (USPS) Shipping

Small items such as memory cards may be shipped by the Post Office.

If the destination address is a PO Box or an APO/FPO, we will ship your order via USPS since FedEx is unable to deliver to those destinations. We will provide tracking information via email after your order has shipped. Items delivered to a PO Box or an APO/FPO will be delivered in 7 - 10 business days. Final delivery for APO/FPO destinations will be subject to the Terms and Conditions of the APO/FPO services. Not all items can be shipped via USPS. Some items that are shipped via USPS may be subject to an additional shipping charge. If necessary, Beachcamera.com will contact you before the order is processed.

Oversized Merchandise Shipping

Oversized merchandise (Flat screen LED TVs over 55", plasma TVs over 51", BBQ Grills & Furniture) are shipped via a motor freight carrier that specializes in Home Delivery. Since these items are large and fragile, special handling is required, and cannot be shipped via our standard shipping options.

We take every precaution during our shipping preparation process to ensure that your order arrives to you in perfect condition. Each item on your order is scanned for accuracy of model and serial number. We apply large orange fragile sticker labels to notify the carrier that your shipment is fragile and requires special handling. The labels also include important step-by-step instructions on how to inspect and sign for your shipment. In addition to the manufacturer's standard foam and corrugated packaging, we also apply a special shock absorption polyethylene material to the outer carton of every TV. This safeguard will disperse energy from impact during transit, and eliminate damage to the product itself. Our professional appointment-based delivery service allows you to open and inspect your new TV prior to signing and accepting the TV. When you purchase a TV at Beachcamera.com, you can be sure that it will arrive perfect working order, and will remain that way for a long time to come.

Non-Deliverable Addresses

We are unable to deliver to the following addresses:

- Mail box drop off locations
- Hotels and motels
- Trade Shows, Conventions, Conferences

DJI - Avata 2 Fly More Combo (Three batteries)

Saw 20%

DJI SKU: CP.FP.00000151.05

UPC:190021105225

With substantial improvements across its features, the DJI Avata 2 FPV Drone with 3-Battery Fly More Combo continues to provide both novice and experienced pilots with a smooth transition into FPV flying and immersive content creation. Engineered for agility and speed at low altitudes and within confined spaces, this compact drone is adept at navigating tight environments. Its maneuverability is further enhanced by the addition of one-button aerobatic maneuvers. While in flight, the gimbal is capable of capturing clear 12MP stills and vibrant 4K HDR videos, offering a range from standard to 155° ultrawide fields of view. DJI has ensured safety during operation by equipping the Avata 2 with an integrated prop guard and a new binocular fisheye visual system.

Details

The Pro Keys 2 keyboard and case has everything you need to make the most of your iPad: laptop-style keys, backlighting, multi-pairing capabilities, detachable keyboard, adjustable stand, stylus holder, and more. The durable case provides 6.6 ft. of drop protection.

Durable Protection: The durable polycarbonate case has a rigid core, rubberized edges and button covers, and corner bumpers to provide 6.6 (2m) of drop protection.

Folio Cover: When the keyboard is detached, the magnetic folio-style cover protects your screen.

Optimal Typing Experience: The laptop-style keys have a new, improved shape for fast, easy typing with clean, precise keystrokes.

Detachable Keyboard: Keyboard and case separate so you can set your iPad on one surface and the keyboard on another.

Adjustable Stand: The folio-style cover folds back into a stand that holds your iPad at two convenient viewing angles.

Long-lasting Battery: Type for up to one year before recharging the battery.1 The sleep/wake function helps preserve battery life when keyboard is not in use.

Stylus Holder: The snap-fit stylus holder keeps your Pro Stylus or Apple Pencil close at-hand.

Multi-device Pairing: The Bluetooth keyboard pairs with two devices, so you can toggle back and forth between them.

Forward-facing Speaker Points: Sound is directed towards the user.

Backlit Keys: Backlit keys, in seven different colors, make typing easy in low-light conditions.

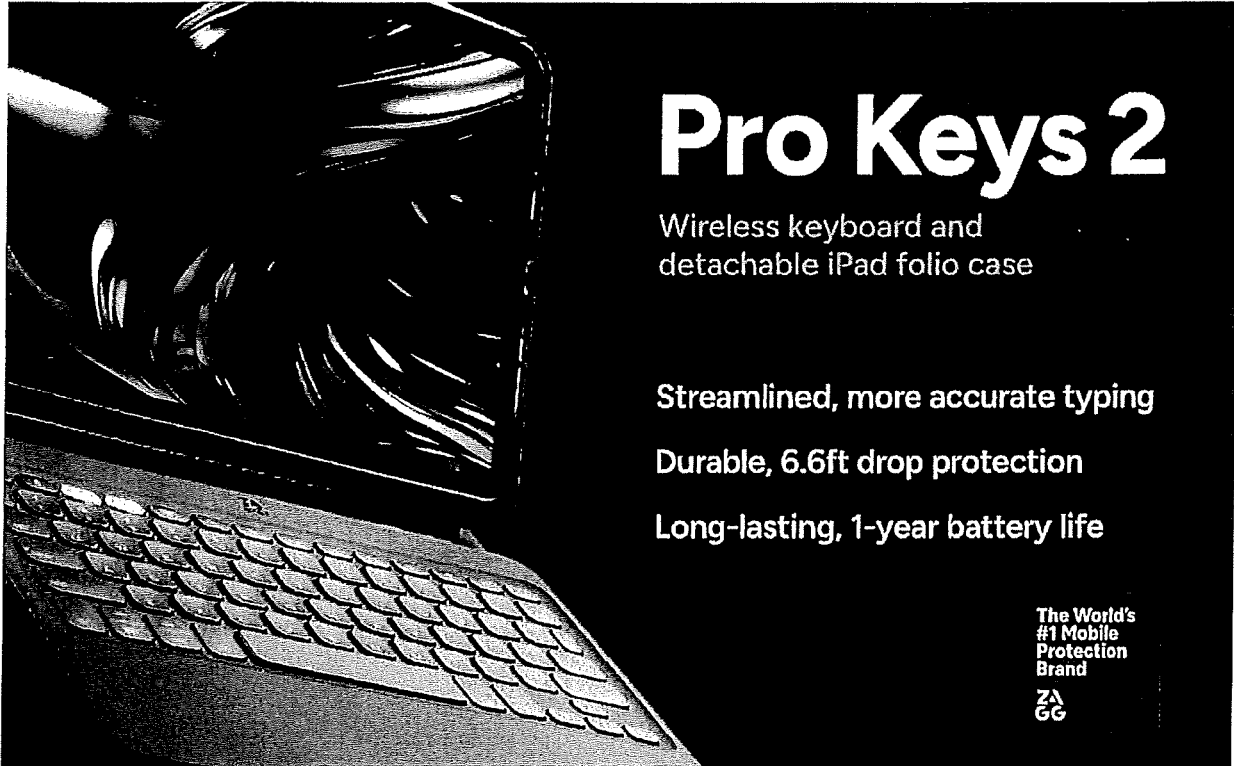

Space Efficient Design: The folding stand takes up little space, making it easier to work on small or narrow surfaces.

Grnt rolling office chair rcvclw

Product Description

This HON chair, the HON Sadie Big and Tall Office Chair, lets you experience comfort and support like never before. This big and tall desk chair is designed to withstand up to 350 pounds, providing both durability and luxury. The teacher chair with adjustable arms allows you to customize the armrest height to your preference, enhancing overall comfort during long working hours. One of the standout features is the lumbar support office chair design; the breathable mesh back provides cooling comfort, reducing pressure points and allowing you to relax while maintaining good posture. The Sadie high back office chair is great for both professional workstations and home offices. Its ergonomic chair design helps promote proper posture, which is essential for long-term spinal health. As a desk chair with wheels, the 360-degree swivel, height adjustment, and smooth-rolling casters make this chair versatile and user-friendly. With a seat depth of 20.9 inches and a width of 22 inches, this computer desk chair offers ample space for comfortable seating. The overall dimensions are 30.31 inches in depth, 30.31 inches in width, and 42.91 inches in height, which fits well in various office settings. Experience the ultimate in ergonomic support with this office chair with lumbar support, which meets industry standards for safety and durability. Its construction and thoughtful design make this chair a wise investment for your workspace. Assembly is required but straightforward, ensuring you can start enjoying your new seating solution in no time.

Customers say

Customers find the office chair comfortable, spacious, and sturdy, with one mentioning it holds up to 350 pounds. The assembly process is easy, and the quality is excellent. However, the lumbar support receives mixed feedback - while some say it provides good support, others find it minimal. Moreover, durability and stability are concerns, with reports of arm rests breaking apart and the chair leaning forward.

Sturdy and Comfortable

Reviewed in the United States on July 12, 2020

Color: Mesh Back - Big and Tall Verified Purchase

I was looking for a heavy duty office chair that was more sturdy and with a deeper seat than the ones I have had in the past. My old chair from an office supply chain was just so-so and with time as it aged began to cut off circulation in the back of my thighs. You do get what you pay for. I looked at several brands and styles of "big and tall" and decided on this one. This chair was considerably more than I had ever spent on a chair, yet right out of the box I could tell that the pieces were of a superior quality and worth the price.

I am 66, 5'2 female, and don't have a lot of strength, yet I was able to put this together by myself relatively quickly. Everything was drilled the way it was supposed to be, came with all the screws and allen wrench necessary for assembly and directions that were pretty easy to follow. I had this together in about 20 minutes once I had everything unpacked. The box it comes in is big and very heavy, but individual pieces are manageable.

The wheel base is wide and strong, the support is amazing and the seat is deep enough that I have full

Comfortable and long lasting

Reviewed in the United States on January 8, 2020

Color: Mesh Back - Big and Tall Verified Purchase

I'm a big guy, I spend a lot of time in my office chair. These are lasting me a good 3 years or more before I buy a new one. Even then, the only thing that has ever failed is the gas lift. This alone is extremely impressive as I have had no other chair that was able to withstand sustained use on a daily basis.

The simplicity of this chair in its design makes it very easy to build but also very reliable and long lasting. The chair back bolts to the chair bottom via an L bracket rather than relying on the chair arms to attach the back and seat together, as is very common in most office chairs.

The advantage of this design is two fold. Number 1, as the chair back and arms are independent of each other, you are not permanently slightly reclined. The attachment angle of the arms on your average chair are a literal pain in my backside as it's impossible to sit up straight and still be supported by the chair back!

Number two, the structural integrity of the chair doesn't rely on the chair arms. The most common point of

Short Girl Problems

Reviewed in the United States on October 28, 2020

Color: Mesh Sack - Sig and Tall **Verified Purchase**

Full disclaimer, I knew ahead of time that this is a SIG & TALL chair. I wanted that and I've read dozens of reviews on multiple chairs on Amazon before deciding on this chair. I'm not returning it, but it doesn't meet all the standard pros of good SIG chairs. It is definitely better than my last chair. I wanted to let any girls out there know a bit about the chair since a lot of the reviews cover the Sig and Tall aspect but not the norms for girls looking for at home office chairs. This won't apply to everyone by a long shot, but hopefully it helps others that just want a big chair.

I work from home and need an 8-9hr chair. My desk is 30 inches tall with slightly elevated monitors. I have a foot stool because my feet don't hit the ground if I sit all the way back in any chair. Totally expected that here, so that's not a "dislike." I'm 5'3" and 200lbs. I typically sit with my legs up in my chair folded under me and I tilt my chairs back most of the time. (Think recliner still minus the legs!) Stay with me here... that's my comfy place to zone in for work. So, I needed a chair that tilts and has a wide and deep seat to accomplish this. Now, let's talk about pros and cons based on the non-typical use of the chair, with the hopes that others might find this useful.

- * THE ORIGINAL DESIGN-We invented these wheels in 2016 and have sold over 1,000,000 sets. Hundreds of knockoffs now exist, but none come close to our quality or lifetime warranty. When you choose us, you're getting the original - from a small American family business.
- * SAFE FOR ALL FLOORS - Many chair wheels use cheap, low quality materials that destroy your flooring. We don't. Encased with soft, polyurethane material our rollerblade style wheels are guaranteed not to scratch or leave marks on any surface (including hardwood, carpet, tile, laminate and more).
- * QUICK AND EASY INSTALLATION - No tools required! Easily remove and replace the wheels in your desk chair in less than 30 seconds. Simply pull out your old caster wheels and pop these in. Check out our quick replacement video for more details.
- * UNIVERSAL SIZE - Upgrade any rolling office chair with these smooth caster wheels. The universal size stem will fit almost every office chair on the market, except IKEA, for those check out our IKEA Chairs Only size. If for some reason they don't fit your specific chair, we'll gladly take care of you.
- * LIFETIME WARRANTY - Our warranty never expires, so if you EVER have any issues, we'll send you a brand new set of wheels. We're the only brand that offers and stands behind a full lifetime warranty.

Huge Upgrade - Didn't Expect This Big a Difference

Reviewed in the United States on February 1, 2026

Color: Clear [Verified Purchase](#)

I honestly didn't expect chair wheels to make this much of a difference, but here we are. I bought these from The Wheel Oasis, and my chair now glides effortlessly. Smooth, quiet, and stable. I don't even use a chair mat anymore - that's how good they are.

Install was easy, the quality is solid, and you can tell care went into the product. I also really like supporting a small, family-owned business, especially when they're putting out something this well made.

If you're on the fence, just get them. Total game changer for my setup.

A surprising upgrade for everyday comfort.

Reviewed in the United States on January 19, 2026

Color: Clear [Verified Purchase](#)

This is one of those products that should be recommended alongside a bidet, an air fryer or ring camera for the improvement of one's quality of life it provides - plus, it was an unexpected one, and cheaper than others. My La-Z-Boy chair is one of those heavy duty ones, with leather and metal and a higher weight limit, and while the wheels it came with were certainly stronger and of a higher quality than most of the computer chairs I've had before, they were still a hard plastic. I could hear them squeaking and sounding rough on the floor; it made using the chair a task, rather than something I enjoyed, which is a shame, because I certainly spent a lot for my chair. I came across one of those, "What items would you recommend to others that made your life better?" threads on reddit, and one of the buried suggestions were these wheels. They really are such a simple, easy way to improve your time spent at a desk. The quality is outstanding - solid steel and smooth wheels that don't scratch my floors. They roll/glide far more easily than typical plastic wheels. It comes from a small business. Plus, it seems they're usually about \$40 which isn't a lot. I recommend at least giving them a shot, as you can always return them. Installation is easy, provided you can turn your chair over.

AMAZING!!!! These wheels snapped right in to the socket. They are sturdy, glide wonderfully on the floor... very smooth. And, very quiet!! They raised the chair height a fair bit but that was fine for me. I love these wheels. Considering swapping out my other chair wheels as well. Highly recommend!!!

Smooth and a nice upgrade

Very smooth. The wheels spin very freely without much resistance, and that combined with the wheel material's ability to grip the floor's surface allows my chair to easily glide across the floor. These are much, much nicer than the casters that came with my chair and those that come with most chairs. Installation is super simple and only took a minute or two.

Title: The customer service, which I would actually categorize as customer care, is above and beyond expectations. Something that could have ended with complete and utter disappointment, ended up as the best experience, and I'm already ordering a new set of wheels.

I'm writing this review on Sep 9th 2024

In late April (a bit over 4 months ago), after going over many caster wheel postings on Amazon, and a return of ones that upon arrival were a dud and returned, I purchased these (Original Rollerblade Office Chair Wheels) for \$28.95.

I installed it on a chair I bought from newegg for ~\$130 about 3 years prior. I use the chair over a polycarbonate surface on a medium pile carpet. As I work from home AND I'm a computer geek in my spare time, I sit on this chair A LOT.

These wheels are built amazingly well but still have a little difficulty gliding across the carpet in my room. I plan to keep them and hopefully find a mat to place under the wheels for better movement.

If you have an office with low to medium pile carpet or hardwood flooring, they'll work like a dream.

Proper wheels, move freely and metal construction makes them very strong. I'm heavy and I got fed up breaking the wheels on my chair, they would have been OK on a hard floor but I'm on carpet and they kept getting stuck and plastic broke when I pushed. These are all steel with a hard rubber solid tyre, much stronger and with ball bearings in the wheel and on the rotation they should last much longer I will add to this review in six months with an update.
